

# ARCHETYPES COLLIDE

## BIO

Arriving in recent years with powerful anthems driven by heartfelt emotion, ARCHETYPES COLLIDE quickly established itself as a band unafraid to blur the lines between safety and innovation in heavy music. Soaring vocals, melodies, and heavy grooves swirl with passion and precision. The Arizona upstarts deliver massive hooks, soaked in atmosphere, with creative energy and catchiness. Kyle Pastor (vocals), Brandon Baker and Jared Knister (guitars), Ky Sanders (bass), and Tyler Flamm (drums) put the same work ethic and focus into songwriting as they spent building the band from their local scene to the international stage. Unapologetic choruses and bang-your-head riffs collide. Striving for a deep connection with listeners first and foremost, songs like "My Own Device," "What If I Fall," "Parasite," and "Fade Away" combine loud bombast with intimate pop. ARCHETYPES COLLIDE demands repeated listening, mixing everything from Linkin Park and Bring Me The Horizon to The Chainsmokers, and Stranger Things-style retro synths, into a unique musical identity. ARCHETYPES COLLIDE isn't bound by preconceived notions or limitations. As Pastor explains simply: "Why not take every shot, in every direction, under the umbrella of hard rock and metal?"
