

ICE NINE KILLS

NEW ALBUM
**'THE SILVER SCREAM 2:
 WELCOME TO HORRORWOOD'**
 OUT NOW

BIO

Like the undead slashers of the bloody VHS classics conjured in their songs, ICE NINE KILLS returns with killer stabs from their album 'The Silver Scream 2.: Welcome to Horrorwood.' A sequel of franchise proportions to the No. 1 Billboard Hard Rock Album The Silver Scream, Welcome to Horrorwood doubles down in pursuit of the anthemic band's cinematic muse.

Loudwire hails ICE NINE KILLS as "one of the most unique acts in metal right now." The band's synergy of music and lifestyle draws favorable comparisons to Slipknot and Rob Zombie. Visionary trailblazers and multimedia raconteurs, INK built a thrilling world for a growing legion of devoted true believers, with theatrical shows, high-concept videos, and inventive band-to-fan communion
