

LOCKET NEW ALBUM 'SUPERLUMINAL' OUT FALL 2023

BIO

Ontario alt-rock band Locket have crafted a definitive statement with Superluminal, a creatively ambitious yet firmly focused effort. The band – singer/guitarist Brad Garcia, guitarist Cory Bergeron and bassist Travis Morrison – formed in Markham in 2012 and were originally known as Safe to Say. They released their independent debut album With Everything in Between in 2013 and followed it with the Hiding Games EP (SideOneDummy) in 2015 and their second album Down in the Dark (New Damage) in 2016. Over a period of five years, the band toured across Canada, the U.S., Europe, and the U.K., including a summer on the Warped Tour. They went on hiatus in 2017, regrouped two years later under the new name Locket, and released All Out (Fearless) in late 2019. The record earned raves from Billboard, The Alternative, and New Noise, while the single "Hunnie" racked up more than 1.3 million Spotify streams.

Even as the band continues to grow, evolve, and expand, Locket remains an entirely DIY endeavor; since 2015, they've produced all of their own records and directed most of their own music videos. That's why "Sonic Bloom" is all the more impressive given its intricacy and scope. This time around, the band members found themselves particularly inspired by R&B, electronic music and early-2000s hip hop, and those influences are fully apparent throughout "Sonic Bloom". It's a lush and gorgeous song that will establish Locket's place in the alt rock realm.

CAREER HIGHLIGHTS

- Career Streams To Date: 7.6M
- Debut album 'Out Of Sight' (2019) - 4.5M streams to-date
