

STARSET

ARTIST STATEMENT

"The first goal of every song I write is to either convey an emotion I'm having or elicit an emotion in someone else on a human level, then the second layer is the narrative. Science and sci-fi are deeply integrated into the project and I think me having a decent understanding of science and tech has certainly helped it have an authenticity. I believe in the end this is the aspect that gives us something immersive and entertaining with a depth and breadth that can provide audiences with a rich experience." - Dustin Bates
