

# TREVOR DANIEL

## BIO

Trevor Daniel's music comes to life outside of stylistic and emotional boundaries. In his world, sadness, loneliness, and confusion co-exist seamlessly with ecstasy, lust, and clarity set to a soundtrack equally appropriate for a midnight festival set, underground club, or new romance. When he caught the attention of super producer Taz Taylor after uploading some of his early music, Trevor's life changed forever. Together, they cooked up the Homesick EP highlighted by his quadruple-platinum breakout "Falling," which has tallied over 1.6 billion Spotify streams and cracked the Top 20 of the Billboard Hot 100. Additional hits came including the gold certified "Past Life" with Selena Gomez as well as tracks with other notable super stars such as Summer Walker, and blackbear as well as a featured on the soundtrack for The SpongeBob Movie: Sponge On The Run. Trevor has also lit up the stages of major festivals such as Lollapalooza, Outside Lands, and Firefly, among others. Now, the singer, songwriter, producer, and outlier brings an inimitable vision to light on his Fearless Records debut LP, how to disappear completely.
